ZAMBEZIA

The publication of *Zimbabwe*, a bi-annual journal of the University of Zimbabwe, has been made possible by the generous support of the Publications Committee of the University. The focus of the journal is humanities in Zimbabwe and the surrounding region but special articles of a more general interest are also published. Monograph Supplements to *Zimbabwe* cover the main disciplines of the University, and do not necessarily have the same regional focus as *Zimbabwe* itself.

REFERENCING

Footnotes are preferred, but referencing by authors, dates and bibliography is acceptable where this is the norm in the relevant discipline. Page references should always be given unless the reference is to a whole book or article.

In either case, full bibliographic information about the source must be given, including:

- In the case of books: surname and initials of the author(s); title of book; place (city/town) of publication; name of publisher; date of publication; edition (if applicable).
- In the case of a collected work: surname and initials of the author(s) of a contribution referred to; title of the contribution; surname and initials of the editor(s); title of book; place (city/town) of publication; name of publisher; date of publication; edition (if applicable); first and last page numbers of the contribution.
- In the case of a journal article: surname and initials of the author(s) of the article; title of the article; title of the journal; date (year) of publication; volume number; issue number (unless the volume is consecutively paginated); first and last page numbers of the article.

In cases of doubt, it is always preferable to give too much information rather than too little.
